

# Automation

## Auto-Join

When presented with a warning that the stream is intended for **mature audiences**, proceed automatically.

This will also join [Watch Parties](#) automatically.

## Away Mode

Adds a button to toggle between low and auto video quality.

The keyboard shortcut `Alt + A` can also be used.

## Claim Bonuses

When the  button appears, click it automatically.

## First in Line / Up Next

When a channel goes live, head to its stream automatically.

**Up Next** adds a queueing service to Twitch™.

### Options

Adjust settings for First in Line

## Follows

While watching a channel that isn't followed, follow it automatically.

### Options

Adjust settings for Auto-Follow

## Next Channel

How should the next channel be decided when **Up Next** is empty?

This only activates when the current stream goes offline.

Go to a random channel

## Prevent Hosting

Prevent certain or all channels from hosting by going to the **Next Channel**.

Prevent unfollowed channels from being hosted

## Prevent Raiding

Prevent certain or all channels from raiding by going to the **Next Channel**.

Only raid to collect the bonus points

## Stay Live

After the current stream ends, go to the **Next Channel**.

## Video Recovery

### ▶ Keep Pop-out

When moving to a new page, prevent the extension from destroying the small video (pop-out) of the stream.

### ▶ Recover Ads

When an advertisement fails to play ("freezes"), attempt to recover it.

### ▶ Recover Frames

When the video fails to play (drops frames for longer than **15 seconds**), reload the webpage.

### ▶ Recover Stream

When the stream fails to play ("freezes"), attempt to recover it.

▶ Recover Video

When the video fails to download (black screen), reload the webpage.

# Experimental Features ?

## Auto-Focus

Automatically adjust **Up Next** and **Away Mode** based upon stream activity.  
[This will \*\*not\*\* stop the one minute timer.](#)

### Options

Adjust options for Auto-Focus

## Convert emotes

When presented with emote-based-text, convert the text into the corresponding emote (without requiring a subscription).  
This only works for the current stream you are viewing.  
[This does \*\*not\*\* save/unlock the emote.](#)

## Kill Extensions

Do not allow Twitch™ extensions to display.

## Native Reply

Attempt to display native Twitch™ replies on all channels.

## Prevent spam

Hide repetitive messages in chat.

### Options

Adjust options for Prevent Spam

## Recover Pages

If the webpage fails to display, attempt to recover it.  
If the **Stream Chat** is not loaded (or suddenly destroyed), attempt to recover it.

## Use Fine Details

Allow the extension to use Twitch™ API data to enhance your experience.  
This will not collect any data. It will use the data Twitch™ has collected.
